

FOR IMMEDIATE RELEASE: 04/06/2020

ALLIOT TECHNOLOGIES PARTNERS WITH KENTIX TO PROVIDE SMART COVID-19 SCREENING SOLUTION

**Leading European IoT distributor, Alliot Technologies to begin distributing the
Kentix SmartXcan Body Temperature Sensor throughout the UK & Europe.**

Huddersfield, West Yorkshire, UK / June 4th 2020 – Specialist European IoT distributor, Alliot Technologies has today announced its new partnership with leading German manufacturer, Kentix. The new agreement sees Alliot become the UK's first distributor of the groundbreaking Kentix SmartXcan body temperature sensor.

With fevers reported as one of the leading symptoms of COVID-19, the Kentix SmartXcan provides a contactless body temperature measurement in less than 1 second. Utilising thermal image analysis, the SmartXcan sensor complies with GDPR regulations and offers a safe, fast device to help limit the transmission of infectious diseases.

Alliot's Product Development Director, Paul Hayes said, "As restrictions slowly begin to be altered around the world, the Kentix SmartXcan offers a safe, intuitive device which can help us all adjust to the 'new normal'. Whether you're a business looking to protect staff in the workplace or a public organisation wanting to lower the risk of transmission of COVID-19 in public places, the use cases for the SmartXcan sensor are endless.

"Available with or without an integrated RFID reader, the PoE powered SmartXcan can be configured to work with existing access control systems for additional functionality. We are really excited to be partnering with Kentix and look forward to working with them to bring their portfolio to the UK and European markets."

Jan Sanders, CSO at Kentix said, "We are pleased to have won Alliot Technologies as the leading IoT partner in the United Kingdom. We expect that with Alliot's help we will be able to gain a foothold in such an interesting market as the UK and together we will be able to deploy our 360° Smart Building Security concept."

END

ABOUT KENTIX:

Kentix GmbH, based in Idar-Oberstein, Germany, is a manufacturer of professional smart building security products for the physical security of business-critical IT infrastructures.

Our 360° integrated security solutions include environmental monitoring, access control, power monitoring and IP video surveillance, completely remote controllable via cloud and all from one source. This saves costs and effort compared to several individual systems. The use of networkable wireless systems and modern IoT technologies also enables cost-effective integration into existing IT networks. We attach great importance to the ease of use of all products, which are manufactured exclusively in Germany to the highest quality standards.

Kentix systems offer network-based solutions for every requirement and are suitable for use in all sectors of the economy. With Kentix you can easily increase your IT availability and avoid system failures before they happen.
