

FOR IMMEDIATE RELEASE: 06/05/21

ALLIOT TECHNOLOGIES BECOME PART OF T2100 GROUP

Leading IoT distributor, Alliot Technologies announce new company initiatives to support its future growth.

Huddersfield, West Yorkshire, UK / May 6th 2021 Specialist IoT distributor, Alliot Technologies has this week announced the launch of its new Group Holdings Company; The T2100 Group. The new group comes as Alliot and its sister company; ProVu Communications once again mark record-breaking years and will oversee the activities of both Alliot and ProVu.

Created to support the future growth of both companies, the T2100 Group is dedicated to streamlining the latest technological innovations to their relevant markets.

With these changes comes the introduction of two new operational committees which will combine both managers and directors to drive the future of each company.

Group Managing Director, Darren Garland said, "I'm incredibly excited to announce the next step in the future of Alliot and ProVu with the creation of the T2100 Group. We have been looking for some time at the best way of giving each company the focus they need to continue to grow whilst giving our up and coming managers a mechanism to get involved in setting and delivering the strategy for their companies.

"After what has been a tough 2020, where our people have not only shown incredible personal strength but also dedication to our companies, I couldn't be happier to be providing new opportunities to our people and paving ways for them to accelerate business while further developing themselves and the next steps for our companies."

END

NOTES TO EDITOR:
ABOUT ALLIOT TECHNOLOGIES:

Alliot Technologies is Europe's leading distributor of IoT products. Specialising in LoRaWAN & cellular IoT (NB-IoT & CAT-M1/LTE-M), Alliot provides easy access to the best in class hardware, services and support to customers throughout the UK and Europe. Alliot's vision is to simplify the set-up and ongoing management of IoT devices by providing solutions ready to be interfaced with the users' selected IT structure through device provisioning services and support from an expert technical team.

Alliot makes IoT accessible to all, helping partners to develop their solutions from proof of concept to fully scalable commercial solutions, enabling them to take the specific piece they need to bring their projects to life.

For more information, contact Alliot Technologies at contact@alliot.co.uk or visit <https://alliot.co.uk/>

ABOUT PROVU COMMUNICATIONS:

ProVu are the UK's business-to-business market leader in VoIP hardware distribution, based in Huddersfield, West Yorkshire. We offer world-class products including a full set of provisioning and fulfilment services to the telecoms and IT industry.

ABOUT T2100 GROUP:

As a Group we are experts at working with best in class vendor partners from all around the world, adding value to the products and services they supply and easing the pain of deployment for our customers.

We own and operate two distribution companies that work in specific fields of technology.

Presently the T2100 Group consists of ProVu Communications which specialises in the field of Cloud Communications and Alliot Technologies who are specialist distributor in the field of the Internet of Things.
