# 24/7 Automated Remote Monitoring

HOSPITALITY

IoT Solutions can be used to automate monitoring in the hospitality industry, delivering substantial time and money savings. Our solution solves unique and complex remote monitoring challenges while reducing human error by combining efficient wireless sensors and gateways with industry-leading monitoring applications, real-time reporting, and instant SMS text message alerts.

MESSAGES   5m ago

Basement has detected a water leak! Please check.

5/23/18 @ 10:42 PM

Press for more

Quick & Easy Setup
Wireless sensors are installed in minutes. Automated data readings are captured instantly.

Actionable Alerts
Receive timely alerts via SMS text messages and emails. Set sensor reading thresholds and configure alert settings.

Corrective Action
Quickly document the necessary course of action required to address alerts associated with incidents and workflows.

Operational Visibility
Ensure compliance and facility management maintenance needs are met with accurate data recording and printable reports.

Enterprise Ready
Industrial grade sensors with low power and long range capabilities for monitoring facilities of any size.

Security & Privacy
Highest standards of data protection, ensuring end-to-end embedded AES encryption.

HOTELS • CASINOS • RESORTS

Achieve superior operational efficiency by instantly expanding your solution to manage:

LEAKS
Reduce potential damage to property and assets

TEMPERATURE
Quickly manage unexpected changes in temperature

PEST CONTROL
Eliminate the threat of rodent infestations

AIR QUALITY
Prevent hazardous exposure to toxic gases

LIGHTING
Measure the ambient light intensity in rooms

OCCUPANCY
Know when someone accesses a room or area

EQUIPMENT
Identify conditions early to prevent catastrophic failures

OPEN/CLOSE
Detect when windows and doors are opened/closed

Our Commitment to You

Immediate Cost-Savings
Save thousands in labour costs associated with manual monitoring.

Day-and-Night Facility Monitoring
Remedy issues before they become costly problems.
