

24/7 Automated Remote Monitoring

HEALTHCARE

IoT Solutions can be used to automate refrigeration monitoring for the healthcare industry, delivering substantial time and money savings. Our solution solves unique and complex remote monitoring challenges while reducing human error by combining efficient wireless sensors and gateways with industry-leading monitoring applications, real-time reporting, and instant SMS text message alerts.

Quick & Easy Setup

Wireless sensors are installed in minutes. Automated temperature and humidity readings are captured instantly.

Compliance Visibility

Ensure regulatory compliance with accurate data recording and printable reports.

Actionable Alerts

Receive timely alerts via SMS text messages and emails. Set sensor reading thresholds and configure alert settings.

Enterprise Ready

Industrial grade sensors with low power and long range capabilities for monitoring facilities of any size.

Corrective Action

Quickly document the necessary course of action required to address alerts associated with incidents and workflows.

Security & Privacy

Highest standards of data protection, ensuring end-to-end embedded AES encryption.

Immediate Cost-Savings

Save thousands in labour costs associated with manual monitoring.

Around the Clock Compliance

Maintain regulatory compliance with full access to temperature logs.
